

**MANY WORK ON RECEPTION TODAY**

**Chairman Ferguson Directs Work; Cars are Busy All Day**

Under the leadership of R. E. Ferguson chairman of the reception committee, one of the biggest groups of enthusiastic men and women that the city of Bayreuth has yet produced was busy all day Monday meeting all the trains and cars that arrived in the city carrying delegates to the G. A. R. encampment and to the allied organizations. Practically all of the available automobiles in the city were in use in one way or another. Many who have cars were back of the wheel assisting in the receiving and the conveying of delegates to homes where they were assigned. Many others who do not own cars were providing their services and many of them driving their neighbor's machines to render 100 per cent service.

An incomplete list of those who were working on the reception has been given out today. There may be names which are not included in this list because so many were offering their services that it was almost impossible to keep up a complete check. The list follows:
