

MILK PURIFICATION MAN SPEAKS HERE

Dr. W. H. Kirk, chief sanitation officer for the Electropure Corporation, gave a talk to the members of the Bucyrus Academy of Medicine at the Academy meeting Monday evening, his subject being purification of milk.

Incidentally it is mentioned that the Electropure machine installed at the Dairy Products plant in this city was the first one in the country installed for commercial use.

A. A. Faflik of the Dostal Products Co., also talked briefly to the doctors concerning modern methods of purifying milk.
