

## SCIOTO TRAIL NORTH PARTIALLY COMPLETE

Harper J. Ward, inspector, announced at noon today that the Scott Construction Co. of Toledo had completed the pouring of concrete on the six and a quarter miles of the Scioto Trail north at 11 o'clock this morning and that work on the improvement will probably be discontinued for the winter. This completes the base from the end of the brick north of the city through the village of Chatfield.

**KIWANIS** Arrangements were completed for a Kiwanis rabbit supper for next week instead of the regular noon luncheon. A hurry up call went out this afternoon to all the hunters of the club who are instructed to furnish enough of the game to provide the supper. All Kiwanis members who have rabbits to turn in are asked to telephone to Al Faflick so the game can be put in cold storage not later than Saturday.

An inter city meeting of the Kiwanis clubs of this district will be held in Bucyrus at an early date according to an announcement from Secretary J. R. Neff today.
